islands.
So considered there is nothing very Telegram Containing False Instrange in the fact that Japanese are hated wherever they go. What would we Japanese do if an American director of a school in Japan publicly declared that Japanese are inferior to Americans

deepened by the receipt of information by Mrs. Carley that her husband is not in any hospital in Boston, as was stated in a telegram received by the young wife last night.

The telegram announcing the missing man's presence in the Massachusetts eity was as follows. The children of the Japanese emigrants are taught that Japan is superior to America because of her history of 3,000 years. In their text books not a single page teaches the necessity of respecting the social conventions of the country to which they emigrate. When we consider etts city was as follows: "John very ill in Dr. Tate's hospital; come at once,"
The telegram was signed "Moriarity."

Mrs. Carley does not know on the country to which they emigrate. When we consider these circumstances it cannot be but natural that some elements among Americal's cry out for the expulsion.

CARPET CLEANING J. & J. W. WILLIAMS 353 W. 54th Street Established 1875, Tel. 866 Celumbus,

The Week in the War.

SUNDAY, Sept. 12.-Austria, according to reports from Vienna and Rome, agrees to recall Dr. Constantin T. Dumba, the Austrian Ambassador to the United States. Count von Bernstorff, the German Ambassador, is reported to have asserted that if diplomatic relations were broken between the United States and Germany German submarines "would sink everything in sight" and thus force war. Russian armies fighting in Galicia drive the Austro-German forces back fourteen miles. Russian Cabinet resigns.

NDAY, Sept. 13.—Zeppelins for the third time in five days raid the eastern counties of England. Lloyd George, British Minister of Munitions, says in a speech that "only our best can win."

ESDAY, Sept. 14.—Zeppelins again raid English coast towns. Tension in German-American controversy is lessened after conference between the German Ambassador and Secretary of State Lansing. Anglo-French commission seeks a billion dollar credit in America. Teutons in drive on Riga break Russian defences. German cavalry reaches the Wilna-Petrograd railroad.

EDNESDAY, Sept. 15 .- Furious battle is reported in progress around Riga, where Germans gain. Russians continue advance in Galicia. German semi-official statement says the Allan liner Hesperian was not victim of a German submarine, but must have struck a mine. Bulgaria is reported to have definitely abandoned intentions to aid Allies. British Parliament discusses conscription. Premier Asquith asks the House to postpone discussion until Government has reached conclusions.

THURSDAY, Sept. 16.—Premier Asquith in the House of Commons says the war is costing Britain \$25,000,000 a day. Big battle begins for the possession of the Wilna-Petrograd railroad. Lord Kitchener tells the House of Lords "German bolt is shot" and tide is turning in Allies' favor.

FRIDAY, Sept. 17 .- Great Britain seizes \$15,000,000 worth of American meat products, prize court charging they were destined for Germany. Von Mackensen's army takes Pinsk.

ATURDAY, Sept. 18.—Official British Press Bureau gives first details of Zeppelin raids; says only civilians were killed and only private property damaged. Germans capture Widsy and flank Wilna and Dwinsk.

ico. A United States Marshal has taken possession of her until the libel suit has been decided, which it is said will take

months, as there are many questions of admirally law involved in the case. The asphalt company claims that it will lose \$550,000 if the steamship is will lose \$550,000 if the steamship is claimed by the English Government for war purposes. This is more than the ship is valued at. Because of the war the asphalt company says the tank steamship would easily earn this amount for the American charterers. The attemnt of the English company to withdraw the ship is without prece-dent, it is said in the papers filed in TRENTON, N. J., Sept. 18.—The United the English Admiralty has the right to

their own. This is the contention of the through its attorneys, Bainbridge American charterers. The papers state that the charter price for the ship has filed a libel against the tank steamship been paid in advance and has still : orgian Prince, owned by an English considerable time to run. The names appany. The steamship was chartered of the parties to whom the owners rether aspealt company three years chartered the steamship are not known. ago for a period of five years. Some time ago the ship was turned over to still another company by the owners.

Recently the Georgian Prince arrived at Carteret, N. J., from Tampico, Mexelations between the steaming in the facts come out at the trial. He did admit that the trial may have some bearing on the relations between the two countries.

The Aeolian-Jocalion Model STYLE G \$100

First payment \$8; the balance payable in small monthly payments. Allowances on phonographs of other makes.

TERE is a beautiful new model of the celebrated Aeolian-Vocalion—the phonograph that has created such a sensation in the music industry.

Though of such moderate cost, it contains all the important scientific discoveries and inventions that make the Aeolian-Vocalion the greatest phonograph the world has ever known.

NEW PHONOGRAPH FEATURES:

The Sound Box

which produces a rich, mellow and rounded denth of tone wholly new to the phonograph and does away with all suggestion of nasal

The Symphonetic Horn

which preserves all the subtle tonal characteristics of different instruments and voices, and produces for the first time from a phonograph even such delicate effects as the wistful 'string-beauties' of violins and the mellow 'wood-tones'' of flutes and clarinets.

The Automatic Stop

a new triumph of simplicity and efficiency only two movements are required to "set" the record to stop at any place desired and start it playing.

And the Wonderful Graduola

which confers the wholly new phonographic privilege of perfect and artistic tone-control.

It lets you play the phonograph with all the musical feeling you possess. If an interpretation suits you or has not yet become monotonous, you let it play itself, as it does on other phonographs. But at any moment and on any record you can introduce just the subtle variations needed to make it sound freshly new and to express your own individuality, as well as the artist's.

Added to these advantages is a simple dignity of line and finish wholly unapproached in phonographs before and Impossible to convey in a mere illustration,

Demonstrations of this splendid new Acolian-Vocation, as well as other models, cheerfully given to the merely curious as well as intending phonograph purchasers.
